

Vincent Isham is Candidate for Congress in District 17

Vincent Lee Isham of Los Angeles today announced his candidacy as Representative from the 17th district.

A realtor, Isham has been active in civic and community projects 15 years. Among his many affiliations is membership in the southwest branch of the Los Angeles Realty Board.

A life-long Republican, he describes himself as a middle-of-the-road exponent.

Isham declared he wants to see the trend in local war plants changed to more active production. When contracts lag, he said, too many plants are being closed or their production curtailed.

He favors reduction in eligible age for Social Security payments from 65 and 62 to 60 in cases of hardship. As a former member of the Operating Engineers, Local 12-B, Isham said he favors fair labor laws.

He wants to maintain a strong military force and a rapidly advancing science and technology.

Isham lives with his wife and two teen-age children at 7340 W. 81st St.

VINCENT LEE ISHAM

King to Run Again

Rep. Cecil R. King today made official his candidacy for re-election to a tenth term as representative of the 17th district with filing of nomination papers for entry in the June 7 primaries.

Phone church office, Pleasant 8-3441, for class program, including information of Prayer Therapy Groups.

WHAT'S DOING

R. S. Pyle, your Telephone Manager in Torrance

Telephone men wearing headsets aren't too unusual a sight in our business. This man, for instance, makes final checks on newly installed phones to make sure they're ready to use. Also, from his special test desk he traces out trouble reports so repair men can get right on the job. You may never have occasion to see a deskman at work. But remember he's always ready to track down any sign of trouble on your line and help keep your telephone a service you can count on.

The last place you might expect to find coal is in your telephone. But it's there, all right. In each telephone mouth-piece there are

tiny coal granules that change voice waves into waves of electric current. Phone people are very particular about this coal—they get a special, handpicked anthracite from Pennsylvania. First, it's crushed, ground, sifted and sorted. Next, it's washed, rinsed, dried, tested for cleanliness and roasted 24 hours at temperatures up to 2048° F. Then it's cooled, tested again, and stored for six months before it's used. Sound complicated? Yes! But it's just one of the ways we work to make your telephone more dependable — more valuable to you.

"A MANNER OF SPEAKING"

... that's the title of a sparkling new telephone movie in color available without charge to business organizations, clubs and schools. This entertaining film, starring that master of comedy Fred Clark, shows how many important business deals can be lost just by improper handling of telephone calls. Certainly all of us can learn a lot from this film and enjoy many laughs in the bargain. A call to our -Film Desk, MADison 1-1811, is all that's needed to arrange for a showing to your group, or call your Business Office. —Pacific Telephone
